OFFICIAL NEWSLETTER OF NORTHRIDGE VILLAGE | JUNE 2019

We Are Adding Memory Care

AMES, Iowa – Northridge Village, a continuing care retirement community in Ames, IA, is proud to announce they will soon be able to offer assisted living memory care.

This service will be offered in a new, 16-unit building on the Northridge Village campus; the building construction is tentatively scheduled for August, 2019. This construction will not cause any delays in the regular services offered by Northridge Village.

Northridge Village offers four levels of living: independent living, assisted living, short-term rehab, and long-term care. Memory care is a distinct form of long-term care that specifically caters to patients with Alzheimer's disease, dementia and other types of memory loss.

Executive Director Gregg Hanson of Northridge Village says, "We're excited to be able to offer memory care to the Ames' residents. We will be focused on providing our memory care residents the greatest care and service possible."

Memory care project updates will be posted on NorthridgeVillage.com and [Facebook.com/NorthridgeVillageIA](https://www.facebook.com/NorthridgeVillageIA).

Northridge Village Farm

The Northridge Village Farm will be located on the southeast side of the Northridge Village campus. There will be a pavilion built that can be reserved by residents and family members. The farm will have a wide variety of vegetables, herbs, and fruit that residents and employees can pick and enjoy. The produce will be used in the dietary department at Northridge Village for residents' meals. Northridge Village in conjunction with Iowa State University horticulture students have designed, will plant and maintain the farm.
